

## Photo Collage Assignment

As we have seen in class, photo collage is a complex yet powerful tool we can use to create innovative images that have a message or tell a story. For this assignment, you must create your own photo collage using one of the three photo collage techniques: 1) Image Composition, 2) Themed, 3) Comic Strip.

### PART 1:

- View collage examples of 1) *image composition*, 2) *themed*, 3) *comic strip*
- Examine the importance of sending a message with the *objects, symbols, colours, shapes, textures, and forms* that you select for your work.

### PART 2: Designing your Photo Collage:

- Have a clear message that is supported by **all** of your images.
- Use one of the three techniques we discussed in class.
- Contain a minimum of 30 different images.
- Be accompanied by a 250 word explanation. Your explanation must:
  - Clearly state your message.
  - Explain what your message means.
  - Explain how your images/collage supports and reinforces your message.

Start your assignment by designing your collage:

- ❖ Write down 2-5 themes that you would like to explore.
- ❖ Select two themes and create a message for both themes.
- ❖ Choose the theme that represents your message better

❖ Sketch your idea for your collage before you start searching for the images.

Choose something that interests you. Feel free to be as creative as you want to be.
